

The Annual Parish Meeting held on 16<sup>th</sup> April 2025 –

Village Hall Report from April 2024 to March 2025 from Alan Payne  
(Chairman)

We have completed planned work and general maintenance to improve and maintain the village hall, the following are examples of tasks undertaken:

We have had the conifer trees at the back of the hall reduced in height and trimmed back again along with other overgrown shrubs and trees.

We have replaced the locks on some of the doors within the village hall, many were worn and failing to lock.

We had the lead on the roof valleys and to front porch stolen in early December, which caused water damage to the main hall ceiling, it was made water tight at the time whilst we sorted out the insurance claim for the damage.

We have replaced the lead with GRP, so hopefully we will not have any further issues.

I would like to take this opportunity to thank the parish council for its continued support it gives the village hall.

The committee continues to hold monthly meetings and new members are always welcome.
